Professional summary

I have experience working in humanitarian and community-based projects, particularly in MEAL activities and support to distribution and relief programs. I have been involved in data collection, field monitoring, communicating with beneficiaries, and supporting accountability and feedback mechanisms to ensure transparent and effective service delivery. I have worked with NGOs and local initiatives, and I am committed to humanitarian principles, respect for dignity, and inclusion. I am able to work within a team, follow organizational procedures, and adapt to challenging field conditions while contributing positively to project implementation in line with ACTED's values.

EXPERIENCE

MEAL Social Worker | ACTED Organization

Dec 2025- Now

- Implemented Monitoring, Evaluation, Accountability, and Learning (MEAL) activities to support humanitarian and social programs, ensuring effective service delivery and compliance with organizational standards.
- Conducted field monitoring visits, collected qualitative and quantitative data through surveys, interviews, and focus group discussions, and ensured accurate data entry and reporting.
- Actively engaged with beneficiaries to assess needs, gather feedback, and address complaints through established accountability mechanisms.
- Collaborated with program teams to analyze findings, identify gaps, and contribute to continuous improvement of interventions.
- Supported reporting processes by preparing monitoring reports and contributing to evaluations, while adhering to ethical standards, confidentiality, and protection principles.

Founder & CEO | Fadaa Technology Inc.

Aug 2022 - May 2025

- Founded and led Fadaa Technology Inc., overseeing the company's strategic direction, operations, and project delivery.
- Managed and coordinated a multidisciplinary team of developers and designers to deliver high-quality digital solutions tailored to client needs.
- Supervised the planning, execution, and quality assurance of web and technology projects, ensuring timely delivery and client satisfaction.
- Played a key role in business development, client communication, and requirement analysis, while maintaining a strong focus on innovation, usability, and performance.
- Ensured efficient resource management, team collaboration, and continuous improvement of services in line with company goals.

Software Engineer | Ministry of Finance

Nov 2021 - April 2022

- Played a key role in the design and development of dynamic and engaging websites using JavaScript, React, and TypeScript.
- Utilized the power of React to create reusable components, enhancing development efficiency and ensuring consistent UI across projects.
- Worked on complex front-end functionalities, incorporating APIs and integrating back-end services to deliver seamless user experiences.

- Collaborated with designers and product managers to understand project requirements, contribute innovative solutions, and deliver on-time results.

EDUCATION

Bachelor's Computer Systems Engineering | Al-Azhar University

February 2018- August 2023

VOLUNTEERING

Volunteer | ReachSci Cambridge

Jun 2023- Now

- Collaborated with the ReachSci team to develop and maintain their website, ensuring an intuitive user experience.
- Implemented responsive design techniques to optimize the site for mobile and desktop devices.
- Utilized HTML, CSS, JavaScript, and Squarespace to update website features and improve site functionality.
- Worked closely with content creators and stakeholders to ensure timely delivery of website updates.

Competitor | Hult Prize Foundation

Jan 2023 - Mar2023

- NCT is an emerging company in the commercial production of a form of cellulose nanocrystal (CNC).
- Cellulose found in recycled clothing is plentiful, renewable and subject to biodegradation.
- The project presents an innovative way to recycle used clothes, which contain cotton and polyester,

Community Volunteer | Union of Arab Intellectuals

May 2019 - Sep 2020

- I have volunteered with the Union of Arab Intellectuals, an organization that strives to promote intellectual discourse and cultural exchange in the Arab world.
- With a strong passion for promoting dialogue and contributing to societal progress, she actively participated in seminars that dealt with critical social and societal issues.

SKILLS

1. Humanitarian & MEAL Skills

- Monitoring, Evaluation, Accountability, and Learning (MEAL) implementation
- Data collection, analysis, and reporting (qualitative & quantitative)
- Field monitoring and site visits
- Beneficiary engagement and feedback collection
- Complaint handling and accountability mechanisms
- Compliance with ethical standards, confidentiality, and protection principles
- Program assessment and continuous improvement

2. Project & Distribution Management

- Coordination of distribution and relief programs
- Resource allocation and logistics support
- Planning, executing, and supervising project activities
- Ensuring timely delivery of assistance to targeted communities
- Risk identification and problem-solving in field operations

3. Communication & Collaboration

- Working effectively within multidisciplinary teams
- Clear communication with beneficiaries, stakeholders, and partners
- Reporting findings and recommendations to program managers
- Volunteer coordination and community engagement

4. Technical & Digital Skills

- Microsoft Office Suite (Word, Excel, PowerPoint) for reporting and tracking
- Basic database management and data entry
- Familiarity with digital tools for monitoring and evaluation
- Experience in web platforms and online reporting (optional but adds value)

5. Personal & Organizational Attributes

- Strong commitment to humanitarian principles and dignity
- Respect for inclusion, diversity, and community needs
- Adaptability to challenging and dynamic field conditions
- Responsibility, reliability, and ethical conduct aligned with ACTED values
- Initiative and enterprising mindset for problem-solving
- Strong organizational and time-management skills

Technical & Digital Skills (From Developer & Software Engineer Experience)

- Web development: JavaScript, React.js, TypeScript, HTML5, CSS3

- Building responsive and interactive user interfaces
- API integration and back-end collaboration
- Technical problem-solving and implementation of digital solutions
- Database management and data entry for monitoring and reporting
- Familiarity with digital tools and platforms for tracking program data

LANGUAGES

- Arabic – Native
- English – Intermediate (Conversational & Writing)
